

# Society for International Support and Assistance

**To whom it might concern:**

I hereby truly declare that I have performed my studies in the way given beneath

University of Copenhagen, 1967-1977 - Ph.D. Sociology (Mag. Scient. Soc.)

University of Roskilde 1972-1975 - BA in National Economics

I have not received an independent diploma concerning the study of economy at Roskilde University, but this is an integrated part of my diploloma in Sociology. Further, it has to be understood that I studied on the 2 different Universities at the same time, so there was a certain element of overlapping.

Yours sincerely

Carsten Høymann Olsen
